Product & Concept**

The wonder of everyday

We are so used to wonder in Italy that it often goes unnoticed, even if **wonder is really everywhere.**

It is even in the fields, where Orogel has always been growing the best vegetables, choosing the most suitable soil, respecting the rhythm of nature, taking care of the smallest details: from **sowing to harvesting and, finally, to your tables.**

We hope you will discover the wonders of our land in each and every dish.

Producing in Italy: a guarantee

OroGel made a choice: **produce only in Italy** in order to promote and enhance the best Italian products and use **exclusively integrated and organic farming techniques**.

The production process **always** starts in the **farm by choosing** the most suitable types of soil and selecting the best seeds to ensure high-quality standards.

The existing **connection with its associates** and the close collaboration between **farmers** and the **production structure** are the real added value of OroGel's system.

Italian supply chain

We look after our products and certify them to guarantee **high quality and the utmost wholesomeness**.

The supply chain: from the field to the table

Before getting onto people's tables, Orogel's products are followed step-by-step.

Product **traceability** is core to every single stage of processing:

- » **Raw materials** are grown by our member farmers.
- » **The processing plants** are cutting-edge and spatially close to the farms in order to guarantee that the vegetables are deep frozen only few hours after harvesting.
- » **Quality controls** are carried out all along the production chain and are supported by strict lab tests.

Orogel's Certifications

- » **Safety and quality** are primary goals that the company has always been seeking to achieve. Thanks to this, Orogel has been awarded important national and international quality certifications.

Our certifications

» Certificazione di prodotto:
Requisito Non OGM in conformità
al DTP 01 (Certificato N° 01/2014/NO)

» Certificazione di servizio:
Agricoltura Sostenibile in conformità
al DTS 03 (Certificato N° 01/SE/03)

Nature is our everyday wonder

Orogel has always had great respect for the environment and has always been actively involved in its protection.

Orogel's member farms grow vegetables according to the principles of **integrated and sustainable agriculture**.

This farming system with low environmental impact, based on a coordinated and sensible use of all production factors, help minimize whatever may have a negative impact on the environment or on consumers' wellness.

Several initiatives have been carried out in the production plants for many years now: their ultimate goal is **cutting energy waste and the excessive use of primary resources like water and gas**.

Organic certified vegetables: the perfect mix of authenticity and naturalness.

Orogel has always used sustainable agricultural practices for products without any residues.

Our best vegetables are available from organic certified production.

Wholesome, healthy, natural products: result of practices that respect the environment and thrive with it.

Retail

Food Service

Industrial Supply

Private Label

» Orogel Retail

Orogel's products have been developed by chefs and nutritionists who work painstakingly to study and fine-tune the best recipes, and provide consumers with vegetables, ready-to-cook sides, soups and purees made with very high-quality raw materials.

» Orogel Food Service

Modern lifestyles have quite radically changed the way we eat. We are increasingly eating out or taking our lunch boxes with us. Orogel is meeting such modern need by offering a wide range of **products that are ready to be cooked, as well as rich in nutritional qualities, taste and convenience.** Such products have been conceived and developed for the Food Service industry.

» Orogel Industrial Supply

Orogel is the partner supplier chosen by leading Italian and foreign companies, as it offers **very high-quality and extremely competitive products and services,** such as grilled vegetables, battered products, herbs and seasonings or semi-dry products.

» Orogel Private Label

Thanks to the Research & Development team and to extremely flexible production lines, Orogel can make **"tailor-made" products that are customized according to each customer's requirements** and follow a shared procedure: first a new original idea, secondly the lab test, then the making of a pilot product batch, and finally production.

Packaging: for all your needs!

**Retail, Food Service, Manufacturing:
the right packaging for each distribution
channel!**

OroGel is able to always present feasible and suitable solutions for all needs: a vast choice of possibilities beginning with single-serving bags to the most common consumer bags (10, 12, 16, 22 oz) and food service sizes (2 and 5 lbs) to then the bigger manufacturing cartons of 10, 20, 40 lbs.

There's so many choices and if the right solution isn't among the ones presented, we're happy to develop it together!

Always sustainable

Environmental sustainability has always come first for us. This is one reason we are very careful with our packaging materials. Our bags are made of 100% recyclable plastics, with size and thickness kept to a minimum. Plastics recycling will give life to new objects with an environmental impact that is much lower than the one given by paper recycling.

Additionally we have developed an entirely compostable packing and we launched it for our organic lines, but it's applicable to any conventional line as well.

Microwavable packing, an added value

The most innovative packaging that allows to directly place your meal in the microwave, in its own bag. This will guarantee a quick and homogeneous preparation, thanks to the steam cooking, and it will keep the organoleptic properties and taste of the food unchanged.

Single servings

A little **microwavable** bag which allows to cook in just few minutes delicious side dishes.

- Maintenance of quality standard per each small bag
- Fast cooking
- Food cost control
- Always same weight/same portions
- Balance: same taste, same impact

Small Boxes, service and convenience

Some types of vegetables and herbs can be packed in convenient small boxes of various weight (2, 3.5, 4 oz). Thanks to the handy lid, they are very easy to dose and put the remaining back into the freezer for the next use.

The small boxes are FSC certified, a guarantee to testify the responsible use of forestry resources.

Vegetables

herbs

Herbs and seasonings are absolutely essential to prepare most of Italian traditional recipes. But everyone, not only Italians, should always have some Orogel's herbs and seasonings at home. They are very easy to dose, and enhance the flavour and fragrance of every dish. Orogel's Herbs and Seasonings are always fresh, as they have been deep frozen only few hours after harvesting, and they add a pinch of taste that makes every dish unique.

The image shows two round pizzas on a wooden cutting board. The pizzas are topped with a variety of grilled vegetables, including zucchini, eggplant, and tomatoes. A small white bowl filled with olives is placed next to the pizzas. A knife with a wooden handle is also visible on the board. The background is a light-colored wooden surface with some fresh herbs and flowers scattered around.

Vegetables

grilled

Peppers, eggplants, zucchini either on their own or all together in our Grilled Vegetable Trio. Then potatoes, zucchini, red onions and tomatoes that make our Contorno Fantasia Grilled Veggie Mix. You are really spoilt for choice with Orogel's Grilled Vegetables: with simple and natural ingredients, ready in few minutes, they add a pinch of health and taste to your table.

A top-down view of a bowl of minestrone soup. The soup is a rich, orange-brown color and contains chickpeas, lentils, green leafy vegetables, and shredded carrots. A piece of flatbread is tucked into the soup. The bowl is on a wooden board, surrounded by more flatbread and lemon slices. A small bowl of green herb sauce and a spoon with chickpeas are also visible.

Minestrone and Soups

Only the best vegetables and the most tasty pulses and grains become ingredients of Orogel's minestrone and soups. Natural recipes with a unique flavor.

A top-down view of a white ceramic bowl filled with a thick, creamy white soup. The soup is garnished with a pile of fresh green spinach leaves in the center, several golden-brown walnuts scattered around, and a drizzle of yellow olive oil. The bowl sits on a white plate with concentric ridges. A silver spoon is placed to the right of the bowl, containing a portion of the walnuts. The background is a light grey, textured surface with some scattered vegetable scraps.

Cream, Puree and Verduri

You can eat them hot but also at room temperature: with their creamy and velvety touch, Orogel's Cream & Puree are delicious puréed veggie soups, and are perfect to get your fill of healthy nutrients without turning down toothsome-ness. These creamy soups have been deep frozen in drops, so they are extremely handy and easy to dose. You can prepare them in few minutes and savour them as they naturally are, by pouring just a drizzle of extra virgin olive oil on them, or with some bread croutons for a delectable but light meal.

Jams

Natural, wholesome, monitored closely from farm to line with love and dedication: only the best products become ingredients in Orogel's preserves. A strong sense of responsibility towards environment, nature, seasons and human beings: these are the values of Orogel's preserves that uses the best fruits, grown with integrated and organic methods.

A huge range of fruit selection may be available

Fruits are quickly frozen to preserve the peak of their flavors and then used in the preserves recipes all year round.

The best technology for the best quality.

The production lines use innovative systems for excellent products outcome.

Low cooking temperatures and time-efficient techniques make sure the organoleptic qualities of the final products are just as good as the original raw ingredients.

This all leads to incredible advantages:

- Ability to develop **many different recipes** that vary for fruit content (up to 180%!)
- Availability of the best fruit **365 days/years**
- Ability to **develop tailor-made products** that are truly unique to one brand

Only concentrate fruit juices are used in our preserves for the **most natural products!**

Types of recipe:

- **Conventional (35% fruit, 20% citrus)**
- **Extra (45%-120%-180% fruit)**
- **Organic**

...and a **tailor made packaging**

- **Single serve glass** jars for the hospitality
- **Glass jars** for a retail line
- 12 kg, 5,5 kg **buckets for industrial** productions or kitchen production (bakery, restaurant)
- **Single serve in aluminum** cups (e.g. Hotel breakfast)
