

**Product & Concept  
North America**

## The wonder of everyday

A large group in the food industry, a great 100% Italian brand.

## Producing in Italy: a guarantee

Orogel made a choice: **produce only in Italy** in order to promote and enhance the best Italian products and use **exclusively integrated and organic farming techniques**.

The production process **always** starts in our **farm by choosing** the most suitable types of soil and selecting the best seeds to ensure high-quality standards.

Once picked, the products are immediately brought to our factories to be processed and deep frozen. This is why we make sure all stages are properly planned, from picking to storage.

This activity is essential to guarantee top-quality products.

Yet, the geographical position we have chosen for our production factories is also strategic: no more than 2 hours away from fields

## The supply chain: from the field to the table

Product **traceability** is core to every single stage of processing:

- » **Raw materials** are grown by our member farmers.
- » **Sustainability** Orogel, is an all-round commitment involving the whole company and production cycle. These are some of our biggest achievements: Investments in energy production from renewable sources, optimisation of energy consumption, reduction of water consumption, use of recyclable and compostable packaging.
- » **The processing plants** are cutting-edge and spatially close to the farms in order to guarantee that the vegetables are deep frozen only few hours after harvesting.
- » **Quality controls** are carried out all along the production chain and are supported by strict lab tests.

## Orogel's Certifications

» Certificazione di prodotto:  
**Requisito Non OGM** in conformità  
al DTP 01 (Certificato N° 01/2014/NO)

» Certificazione di servizio:

al DTS 03 (Certificato N° 01/SE/03)

## Our production is:

### » **Orogel Industrial Supply**

Orogel is the partner supplier chosen by leading Italian and foreign companies, as it offers very high-quality and extremely competitive products and services.

### » **Orogel Private Label**

Thanks to the Research & Development team and to extremely flexible production lines, Orogel can make **"tailor-made" products that are customized according to each customer's requirements** and follow a shared procedure: first a new original idea, secondly the lab test, then the making of a pilot product batch, and finally production.
