# COMPANY LUNCHEAS AND DINNERS

These moments are dedicated to both relaxation and discussion: company buffets are the ideal opportunity to use Orogel FS vegetables, making them the stars of creative finger foods, tasty side dishes, or vegetarian first courses. But there is also room for the best regional specialities, such as asparagus, savoy cabbage or nettle.

# RECEPTIONS

When it comes to events with large numbers, standardising the line and keeping food costs under control become even more important. Thanks to Orogel FS products, you can guarantee the right preparation time in the kitchen and consistent dishes over time. Keeping an eye on the cost per serving.

# REFRESHMENTS FOR EVENTS

Offering tasty and high-quality vegetables at large events is now quick and easy thanks to Orogel products. An extremely wide range of products can be used to make food plating smarter and elegant or to prepare small bites for tastings. From serving boats to teaspoons to small glasses, you can amaze your customers with never-before-tried proposals.

## EASY PREPARATION

How best to handle events with large numbers? Cook the product, then blast freeze and regenerate. This makes sure that the product keeps its taste, aroma, and texture unaltered.
